MEMORANDUM FOR THE RECORD

SUBJECT: DD/S&T Participation in COS Briefings at [REDACTED]

1. [REDACTED] informed me today that he is the DD/S&T representative to participate in the COS Seminar scheduled to be held at [REDACTED] during 4-8 December 1966. Ed has been designated by [REDACTED] with the approval of Mr. Duckett to give a 10-minute briefing on [REDACTED]. He is in the process of checking with various Staff members and Office heads to round out his background on the correct approach to his participation in the seminar. Although he has received some general details from Chief, Far East, [REDACTED] regarding the role that the briefers are to play in the conference, there are some questions which he would like to have resolved.

2. The security clearances of the COS representatives will vary, but it is likely that not all will have TKH clearances, although they will all have SI. I suspect that Ed is somewhat apprehensive that questions may be posed by those who are aware of TKH matters without the full realization of the clearance problem. However, this can be reasonably resolved by staying within the limits of the security level designated for his briefing.

3. Ed has asked for whatever background we can obtain and plans to drop by during the next week to confer with us further.

4. The projected itinerary at the moment is as follows:

Depart Hqs. 1 December  
Arrive [REDACTED] for one-day lay over after the conference which lasts from 4-8 December, Ed will then go to [REDACTED] to look into the [REDACTED] problem

I have asked Ed to send us another memo to give us a formal itinerary for his trip.
